

Index for Volume 4 (2016) of *Life: The Excitement of Biology*

Jorge A. Santiago-Blay¹

This index includes topic and authors (alphabetized by last name) of every paper published in *Life: The Excitement of Biology* volume 4. The first number of an entry indicates the volume followed (parenthetically, by the issue) and the first page of the corresponding paper. For example, arachnids are emphasized on 4(1):32, 4(2):136. This means, that the interested reader should look for information on arachnids beginning in pages 32 and 136 of the corresponding issues of volume 4.
